History of Ojiya Nishi Senior High

Ojiya Nishi High School was founded in 1964 in Niigata Prefecture as a girls' school. It had a general and home economy course. In 1975, the school became a coeducational school. In 1988, an electronics course was added to the curriculum. In 2002, the entire curriculum changed into a comprehensive course. Students can take classes from the following branches: the humanities, natural science, mechatronics, life and health and art. Now, there is an emphasis on Career Education and some students have internships at factories in Ojiya City to help cultivate a solid work ethic.

School Values

- 1 Enhance students basic knowledge and help them acquire specialized skills to develop a solid foundation.
- 2 Conduct and education for the whole person to cultivate a broad education, rich sense of humanity and good sociality. Educate students to be well rounded and possess an enriched sense of society and humanity.
- 3 Carry out a carrier education to cultivate a solid view of work. Foster an educational environment that stimulates strong work ethics in students.
